TEQUILA

SILVER - BLANCO - PLATA - WHITE - PLATINUM

This is the blue agave spirit in its purest form. It is clear and typically un-aged, where the true flavors and the intensity of the agave are present, as well as the natural sweetness.

GOLD - JOVEN - ORO

Gold tequila is typically a Mixto, where colorants and flavorings have been added prior to bottling.

REPOSADO

Reposado tequila is the first stage of "rested and aged." The tequila is aged in wood barrels or storage tanks for two to eleven months. The spirit takes on a golden hue and the taste becomes a good balance between the agave and wood flavors.

AÑEJO

After aging for at least one year, tequila can be classified as an "Añejo." Distillers are required to age Añejo tequila in barrels no larger than 600 liters. This aging process darkens the tequila to an amber color, and the flavor becomes smoother, richer and more complex.
